GMAIL AUTOMATION

Your inbox sorts itself now.

Here's what changed, how it works, and what you need to do.

HOW IT WORKS

Every email gets automatically sorted.

When a new email arrives, an AI reads it and moves it into the right folder — before you even see it.

Important emails stay in your inbox. Everything else goes to its folder, out of the way.

You don't have to do anything. It just works.

YOUR GMAIL SIDEBAR

6 folders.

📁 **1. Projects**	All your job emails
👥 **2. Team**	Kharene, Kim + Admin/Joseph
🏷️ **3. Vendors**	Pricing — out of inbox
📋 **4. Bids / Invites**	GC bid invites — out of inbox
📦 **5. Archive**	Promos + low-signal emails

1. PROJECTS — INSIDE

4 buckets for every job.

A. Upcoming
Auto

New project email arrives → lands here automatically

B. Ongoing
You move it

Work has started — you drag it here when you win the bid

✓ C. Completed
You move it

Job is done — you move it here to keep things clean

D. Unknown
93 jobs

Old jobs from before the system — needs your one-time sort

2. TEAM — INSIDE

Two sub-folders for your people.

📝 **Daily Accomplishments**
Kharene + Kim's daily reports — auto-sorted here every day

🏢 **Office**
Emails from Admin and Joseph — stays in your inbox

Both stay in your inbox so you see them. The folder just helps you find them later.

ACTION REQUIRED — ONE TIME ONLY

93 old jobs are waiting to be sorted.

Before this system started, you had existing projects. The AI didn't know where to put them — so they all landed in **D. Unknown**.

You only need to sort these **once**. After that, every new job email sorts itself automatically.

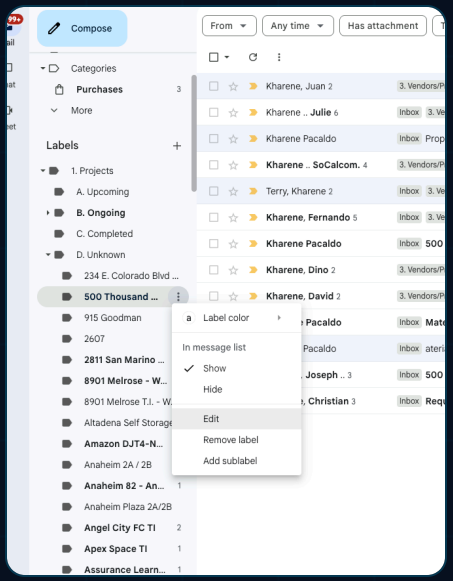
⚡ Takes about **15–30 minutes** total. See next slide for how.

HOW TO MOVE ANY LABEL OR FOLDER

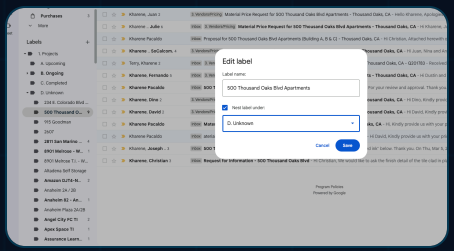
3 steps.
Works for everything.

1. Hover over any label in the sidebar → a ⋮ appears. Click it → click **Edit**.
2. Change **"Nest label under"** to whichever folder you want it in.
3. Click **Save**. Everything inside moves instantly.

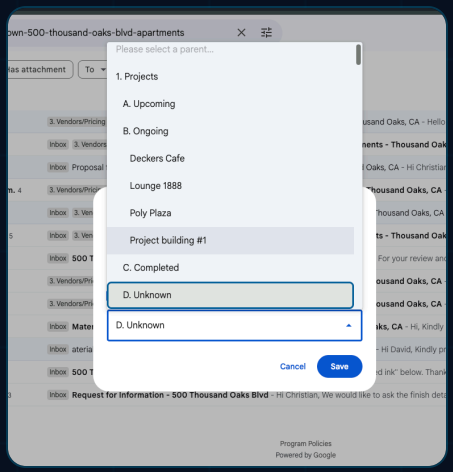
STEP 1 — FIND THE ⋮



STEP 2 — CLICK EDIT



STEP 3 — PICK FOLDER



WHAT'S NEXT — YOUR CALL

How do you want your daily summary?

A **Web + Mobile App**
Works on your phone and desktop — see urgent emails, calendar + team reports live, anywhere

B **Email Briefs Only**
Morning email at 6:30 AM + evening email at 6 PM — nothing else to open

C **Both**
Dashboard for quick checks + briefs as a daily habit

YOU'RE ALL SET

What happens next.

Does everything look right?

Reply to this email with any feedback — anything off, we fix it the same day. Also let us know your choice: **A, B, or C** from the previous slide.

NEXT UP

Calendar

Auto-schedule jobs and deadlines — never miss a follow-up

AFTER THAT

Website + App

A client-facing site and your own dashboard — all connected
